

Desert Studies

Semester: 2024-A

Agriculture and Biotechnology of Drylands

A

Mandatory Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-0153	Dr. Chris Arnush, Dr. Scott Hansen	Writing a Scientific Paper	2	Tue	13:15-15:00	Sede Boqer	Water Inst.	15	Students are required to complete the course in their second semester of studies (or 3rd semester)
470-2-0100	prof. Roi Gazit and Dr. Shira Ovadia	The Care and Use of Animals in Research	0			Online program			
900-5-2002	Online Program	Training in Chemical & Biological Safety	0			Online program			
900-5-5001	Online Program	Educational Software on Getting to Know the Law for the Prevention of Sexual Harassment	0			Online program			

B Core courses - Students are required to attend four core courses selected from all core courses

Mandatory Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-2036	Prof. Gideon Grafi	Molecular Biology and Epigenetics	2	Sun	08:30-10:00	Sede Boqer	Biology	32	Home Exam
001-2-2041	Prof. Noemi Tel-Zur	Plant Reproduction	3	Thu	12:15-15:00	Sede Boqer	Biology	32	
001-2-2055	Dr. Yaron Sitrit	Genetic and Physiological Regulation of Fruit Ripening	2	Mon	11:15-13:00	Sede Boqer	Biology	32	

C Seminars and Thesis Writing - Mandatory Courses

Students are required to attend Departmental Seminars (one seminar per semester)

Students are required to present two seminars (one student seminar per year)

In the third and fourth semesters, students must register for Thesis Writing

Agriculture and Biotechnology of Drylands

Mandatory Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-1000		Thesis Writing - Continuation	0						Mandatory for students on study extension
001-2-2222	Prof. Gideon Grafi (coordinator)	Departmental Seminar	0	Wed	11:30-12:30	Sede Boqer	Old Admin. Build.	1	Mandatory each semester. 4 times during the degree
001-2-9991		Thesis Writing - A	6						Mandatory for students on their 3rd semester
001-2-9992		Thesis Writing - B	6						Mandatory for students on their 4th semester

D

Elective Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-2015	Prof. Dina Zilberg, Prof. Amit Gross	Introduction to Aquaculture	3	Tue	12:15-15:00	Sede Boqer	Water Inst.	10	
001-2-2025	Prof. Dina Zilberg	Practical Fish Disease Diagnosis (A) (Prerequisite: Theoretical fish diseases course)	1						for schedule please contact the lecturer
001-2-2026	Prof. Dina Zilberg	Practical Fish Disease Diagnosis (B) (Prerequisite: Theoretical fish diseases course)	1						for schedule please contact the lecturer
001-2-2027	Prof. Dina Zilberg	Practical Fish Disease Diagnosis (C) (Prerequisite: Theoretical fish diseases course)	1						for schedule please contact the lecturer
001-2-2028	Prof. Shmuel Appelbaum	Guided Reading on Economical Utilization of Food Industry Wastes as Aquaculture Feeds, Particularly in Arid lands	2						for schedule please contact the lecturer Guided reading course - limited to two students
001-2-2040	Prof. Gideon Grafi	Lab Course in Epigenetics	4		17-21.03.2024	Sede Boqer	Biology	136	A five-day intensive course offered during the fall break
001-2-2043	Prof. Shimon Rachmilevitch	Plant Stress Indications: Methods and Instrumentation	2		25-27.03.2024	Sede Boqer	Biology	32	A 3-day intensive workshop offered during the fall break

Agriculture and Biotechnology of Drylands

Elective Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-2046	Prof. Aaron Fait	Analysis of Biological Networks	2.5	Wed	13:00-16:00	Sede Boqer	Biology	136	
001-2-2054	Prof. Shimon Rachmilevitch	Guided Reading on Topics in the Ecophysiology of Desert Plants	2						Guided reading course - limited to two students. for schedule please contact the lecturer
001-2-2060	Dr. Nina Kamennaya	History of the landuse, agriculture & domestication	1	Sun	17:00-18:00	Sede Boqer	Biology	32	
001-2-2066	Prof. Aaron Fait	Metabolomics Laboratory	2	14-18.04.2024		Sede Boqer	Biology	32	A five-day intensive course offered during the fall break
001-2-2074	Prof. Aaron Fait	Viticulture in Arid and Sem-Arid Environments	3	Sun	10:00-12:00	Sede Boqer	Biology	136	
001-2-2075	Dr. Ilya Gelfand	Terrestrial Biogeochemistry	3	Thu	12:15-15:00	Sede Boqer	Biology	136	
001-2-2076	Dr. Nina Kamennaya	Practical Environmental Cytometry	2.5	07-11.04.2024	08:00-17:00	Sede Boqer	School	1	5 days intensive course: (08:00 - 17:00) course offered during the Fall Break 07-11.04.2024
001-2-2078	Prof. Noemi Tel-Zur	Principles and Practice of Microscopy	2	17-21.03.2024	09:00-15:00	Sede Boqer	Biology	32	A five-day Intensive course offered during the FALL Break laboratory and Agriculture Building, Room 32
001-2-2079	Prof. Vered Tzin	Chemical Ecology Spring workshop	2	will be coordinated with the lecturer		Sede Boqer	Biology	32	3 days intensive course offered during the Fall break. Will be coordinated between the students and the lecturer
001-2-2203	Dr. Gilboa Arye	Adsorption and Reactivity of Chemicals in Soils	3	Mon	15:15-18:00	Sede Boqer	Biology	32	

Agriculture and Biotechnology of Drylands

Elective Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-2205	Dr. Ido Regev	Modeling in the Earth Sciences	3	Thu	10:15-13:00	Sede Boqer	Physics	Seminar Room	
001-2-2206	Prof. Arnon Karnieli and Dr. Manuel Salvoldi	Earth observation missions for agricultural monitoring	3	Sun	10:15-13:00	Sede Boqer	Biology	Seminar Room	home exam
001-2-2290	Prof. Dina Zilberg	Guided Reading on Aquatic Animal Health	2						Guided reading course - limited to two students
001-2-2302	Dr. Ilya Gelfand	Guided Reading on Ecosystem Ecology and Biogeochemistry	2						Guided reading course - limited to two students

E General courses (2-3 credits point in total)

Elective Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-1200	Prof. Simon Barak & Dr. Buzi Raviv	BGU Radio Academy – Podcast production course	2	14-19.04.2024		Sede Boqer	School	1	A five day intensive course offered during the fall break. Registration during the spring registration period. The course will be held contingent upon registration of minimum 4 students
001-2-3021	Prof. Itamar Giladi	Biostatistics: Class (can be completed during the program)	3	Tue	08:30-10:00	Sede Boqer	Biology	32	Final exam in a computer lab.*0 credit points for students in the Ecology and Nature Conservation department. Limited to 17 students

Agriculture and Biotechnology of Drylands

Elective Courses

Course No	Lecturer	Subject	Credits	Day	Time	Campus	Building	Room	Rem
001-2-3021 EX	Prof. Itamar Giladi	Biostatistics: Exercise (can be completed during the program)		Wed	09:15-11:00	Sede Boqer	School	Computer room	Final exam in a computer lab.*0 credit points for students in the Ecology and Nature Conservation department. Limited to 17 students
001-2-3079	Prof. Ariel Novoplansky	Scientific Presentation (Group A)	2	Wed	11:15-13:00	Sede Boqer	Biology	A3	
001-2-3079 GB	Prof. Ariel Novoplansky	Scientific Presentation (Group B)	2	Wed	13:15-15:00	Sede Boqer	Biology	A3	
001-2-4016	Dr. Leah Orlovsky	Geography of Desertification	2	Sun	12:15-14:00	Sede Boqer	Physics	1	
001-2-4029	Prof. Yosef Ashkenazy	Introduction to statistics and probability using Python	3	Mon	10:15 -13:00	Sede Boqer	Physics	Seminar Room	Frontal Exam
001-2-5069	MOOC	Water & the Environment: Current challenges and solutions	3						Online course. Frontal Exam
