The 22nd Sede Boqer Symposium on Solar Electricity Production

September 24-25, 2019

Announcing the Call for Papers for **22nd Sede Boqer Symposium**, organized by the Ben-Gurion National Solar Energy Center, on Ben-Gurion University's Sede Boqer campus.

The Sede Boqer symposia are unusual in that they combine presentations on all methods of solar energy conversion to electricity (photovoltaic, solar-thermal, etc.) in a single conference without parallel sessions.

Abstracts on the following subjects are of interest: solar energy conversion systems, optics of solar systems, models of systems and components, photovoltaic materials and devices, concentrated solar energy, measurements and characterization, solar thermal systems, thermoelectricity, electricity and heat storage, solar applications.

Organizing Committee

Prof. Eugene A. Katz

Prof. Daniel Feuermann

Conference Administration

Ms. Shoshana Dann

Tel. 08-6596934 | Fax: 08-6596736

Keynote Speakers

Prof. Eli Yablonovitch

University of California - Berkley

"Mass Production of Thin-Film Single-Crystal GaAs Solar Cells"

Prof. Martin Green

University of New South Wales

"Photovoltaic Research and Technology: Current Status and Future Prospects"

Prof. Aldo Di Carlo

"Tor Vergata" University of Rome

"Interface engineering in Halide Perovskite Photovoltaics: from Lab Cells to Modules and Panels"

Deadline for abstracts

May 26, 2019

There will be a poster session with awards for students.

Please send your abstracts to:

sbsolarsymposium@bgu.ac.il

The abstract should be according to the **template** available on our webpage.

Template, updates, registration and other information, will be updated at our site:
