Name of the course: Research Workshop A
Lecturer name: Ariel Cohen
Course number: 132.2.0135

Course requirements:
Attendance required  yes
Papers:  25%
Presentations:  75%

In this workshop we will develop methodological skills required for linguistic research: Data collection and presentation, integration of one's findings with the relevant literature, analytical tools for stating generalizations, logic and argumentation, writing abstracts and academic papers. In addition, students will present their research topics during the workshop, and together we will form ideas for new research directions.
