

The Enzyme Kinetics of Michaelis and Menten, 1913-2013

Historical Background, Controversies,
and Scientific Perspectives

October 8, 2013

Auditorium 10, Life Sciences Building 38, BGU

10:30-11:50

Ute Deichmann, BGU:

Discovery and Progress in Biochemistry.

The Example of Leonor Michaelis

Eyal Gur, BGU:

*Enzyme Kinetics Measurements Unravel Complexities of
Protein-Protein Interactions in the Pup-Proteasome System*

11:50-12:10

Coffee break

12:10-14:00

Mikael Elias, Weizmann Institute of Science:

The Michaelis-Menten Model

and the Far-From-Perfect Enzyme

Special guest lecture:

Athel Cornish-Bowden, CNRS, Marseille:

100 Years of Michaelis–Menten Kinetics

Closing discussion
