The Senate and the Executive Committee of Ben-Gurion University of the Negev hereby resolve to honor Dame Prof. Carol V. Robinson, DBE

With deep esteem for an eminent chemist, Fellow of the Royal Society, in acknowledgement of her invaluable contributions to the resolution of key questions in chemical biology; in appreciation of a trailblazing researcher, whose groundbreaking work on the application of macromolecular mass spectrometry and gas-phase structural biology launched a crucial new field of therapeutic research; to a brilliant scientist whose discoveries on protein folding and the three-dimensional structure of proteins have opened up multiple new avenues of exploration; with deep admiration for a dedicated professor who has served in countless academic positions, including President of the Royal Society of Chemistry, mentored and guided generations of students, and worked tirelessly to promote women in science; in tribute to the recipient of numerous awards and honors, including Dame Commander of the Order of the British Empire; and with gratitude for her enduring pursuit of innovations in biotechnology and pharmaceutics through the application of mass spectrometry for the common good,

by conferring upon her the degree of

Doctor Philosophiae Honoris Causa

With all the rights and privileges pertaining thereto
