

## Post-doctoral position at the Technion

The Behavioral Science area at the Technion-Israel Institute of Technology invites applications for a Postdoctoral Fellowship in the lab of Prof. Eldad Yechiam on a project involving neuropsychological examination of decision behavior. We will consider applications from individuals with a variety of backgrounds, including psychology, economics, and neurosciences, with a track record of several publications and other achievements in decision sciences. Applicants must have a Ph.D. from an accredited institution at the time of the appointment.

The behavioral science area of the Technion– Israel Institute of Technology is in the faculty of Industrial Engineering and Management. Other areas in the faculty are Economics, Statistics, Data Sciences, and Operations Research. The behavioral science area includes 12 faculty members) <https://web.iem.technion.ac.il/en/research/behavioral-science-and-management/general-information.html> .( The Technion has an fMRI machine available for research and several labs for running experiments. No teaching is involved in the position.

Technion – Israel Institute of Technology is Israel’s oldest university and is located in Haifa on the Carmel Mountain.

The duration of the Fellowship is one year, with the appointment renewable for a second year. Compensation is competitive. The appointment is expected to begin on the summer of 2019.

If you wish to apply, please submit electronically 1) a CV.,2) two letters of recommendation, and 3) a brief letter presenting your research interests and how they complement and connect to the research directions of Prof. Yechiam. Please submit the documents in PDF format to Prof. Yechiam at [yeldad@tx.technion.ac.il](mailto:yeldad@tx.technion.ac.il).

For questions about this position, please contact Prof. Yechiam directly.
