The Meta-Reasoning website<https://meta-reasoning.net.technion.ac.il/> includes information about this sub-domain of Metacognitive research. We are excited to invite you to take part in our 1st Meta-Reasoning Conference in Jerusalem, Dec. 4th-6th, 2022. See details in the open call in the conference website<https://iias.huji.ac.il/event/first-meta-reasoning-conference-research-group-conference>. The call will be open till July 31st.

This conference is part of our IIAS group activity<https://iias.huji.ac.il/meta-reasoning-concepts-open-issues-and-methodology> in Jerusalem, that will take place from Sep. 1st-Dec.31th, 2022. In a dedicated page in our website<https://meta-reasoning.net.technion.ac.il/> we will publish the schedule of the activities that will be open via Zoom. As noted there, we will open Zoom only if at least one person will ask for it. I will manage it. Thus, if you want to join any activity, please write to me at least a day earlier. We will share recordings, where available.

In addition, there is a mailing list for our Meta-Reasoning community in which we send updates and calls. Registration is done by writing to me<mailto:ackerman@ie.technion.ac.il>.
