

CALL FOR PAPERS

**2021 Strategy Science Conference
Harvard Business School
April 28-29, 2021
&
Strategy Science Doctoral Workshop
April 27, 2021**

We are pleased to announce the fourth annual Strategy Science Conference. The conference will be online and will be hosted by Harvard Business School and co-sponsored by the journal [Strategy Science](#). *Strategy Science*, an INFORMS journal, is establishing itself as an important voice in the strategy field, providing an outlet for innovative strategy research tackling central questions in the field. In that spirit, the conference will provide an opportunity for a limited number of strategy researchers to share their work with in-depth discussions both in the context of the formal paper presentations and panel discussions.

The conference aims to attract a diverse set of work addressing key issues in the strategy field. Papers not currently under journal review, which could be potential submissions to *Strategy Science*, are particularly welcome. While the primary focus of the conference will be on research contributions, we will offer one or more “teaching showcase” sessions. We are particularly interested in innovative and reimagined courses you have created and also welcome proposals based around an interesting new case, conceptual framework, or pedagogical approach that you have used in your MBA or undergraduate class. For teaching showcase proposals, please provide us with a one-page description of what you would be presenting and any associated materials. (You can submit this in addition to, or in lieu of, a paper submission.)

Prior to the main conference, the *Strategy Science* Doctoral Workshop will be held on Tuesday April 27. The format is targeted toward students who are finishing or have recently finished their coursework and are in the early stages of their dissertation work (not targeting the upcoming job market cycle). Applicants should send a brief (3 to 4 page) statement of their research interests along with their CV and provide one letter of recommendation from a faculty member. Students admitted to the workshop will also be invited to participate in the main conference that follows on Wednesday and Thursday.

The deadline for submissions to the Conference and the Doctoral Workshop is February 19, 2021. Please upload Conference submissions to <https://tinyurl.com/strasci-conf-2021>. Applications to the Doctoral Workshop should be uploaded to <https://tinyurl.com/strasci-phd-2021>.
