

Academic year 2024-2025

Guidelines for Graduate Students Progress Report

Avram and Stella Goldstein - Goren Department of Biotechnology Engineering

The following instructions refer to the progress report for:

- a. Master's degree students (the report should be submitted by completing 2 and then 3 semesters of studies)
- b. Doctoral students at the Kreitman School (the report should be submitted each year following candidacy exam)*

The report should include:

- 1. Cover Page:** a. Research title, name of the student and name of the supervisor. Years since starting the studies and the period to which the report refers to.
- 2. Abstract Page:** describing shortly the introduction, objectives, methodology, and main results obtained previously and in the period to which the report refers to.
- 2. Detailed Description (2 pages):** Of the experimental setup and results obtained from the previous report up to the current report.
- 3. Summary including:**
 - Publications since beginning of studies
 - Conference participation since beginning of studies
 - Plans (in bullets format) for continuing the research

***For doctoral students:** Ensure that the report also meets the Kreitman School guidelines
