

Faculty Positions (All Ranks) in the Department of Mechanical Engineering, Ben-Gurion University of the Negev

The Department of Mechanical Engineering at the Ben-Gurion University of the Negev invites applications for multiple faculties, full time tenure track positions in all ranks.

We seek outstanding academics with a passion for the field of mechanical science and engineering and the proven capacity to develop a vibrant research program and translate it into the challenging and innovative teaching curricula. Successful candidates are expected to teach in Hebrew at the undergraduate and graduate levels, establish and maintain active research programs, and provide service to the department, the university, and the profession.
