

Weekly Seminar Series - Spring Semester 2018/2019
(Monday 14:10, in Auditorium 10 of the Life Sciences Building # 38)
Seminar coordinators: Dr. Gabriel Frank, Dr. Alal Eran

Date	Invited Speaker	Affiliation	Seminar Title	Host
25.2.19	Dr. Benyamin Rosental	Comparative Immunology lab Institute for Agriculture and Biotechnology, Ben-Gurion University of the Negev	Evolutionary Origin of the Mammalian Hematopoietic and Immune Systems Found in a Colonial Chordate	Dr. Gabriel Frank
4.3.19	Dr. Itay Sharon	Department of Computer Science, MIGAL Galilee Research Institute and Tel Hai College	Deciphering the roles of strain variation in the human microbiome	Prof. Itzik Mizrahi
11.3.19	Prof. Olivier Bensaude	Department of Biology, Institut de Biologie de l'École Normale Supérieure	Hunting for the function of a non-coding RNA/protein dancing couple. 7SK and HEXIM	Prof. Michal Shapira
25.3.19	Dr. Noam Kaplan	Russel Berrie Nanotechnology Institute, Technion	Genome Structure & Function	Dr. Ally Eran
1.4.19	Prof. Gil Bejerano	Department of Computer Science, Stanford University	TBA	Dr. Ramon Birnbaum
8.4.19	Prof. Michael Hecht	Department of Chemistry, Princeton University	Toward Artificial Proteomes: Sustaining Life with Proteins Designed De Novo	Prof. Lital Alfonta
29.4.19	Dr. Itay Tirosh	Department of Molecular Cell Biology, Weizmann Institute of Science	Tumor systems biology	Dr. Ally Eran
6.5.19	Dr. Moran Gershoni	Department of Ruminant Science, Agricultural Research Organization, Volcani Center	TBA	Prof. Dan Mishmar
13.5.19	Dr. Rani Elkon	Department of Human Genetics, Tel Aviv University	Mechanisms of gene regulation	Dr. Ally Eran
20.5.19	Dr. Tomer Kalisky	Faculty of Engineering, Bar Ilan University	Single-cell genomics of kidney development and cancer	Dr. Ally Eran
27.5.19	Dr. Moran Yassour	Department of Microbiology and Molecular Genetics, The Hebrew University of Jerusalem	Human gut microbiome in health and disease	Dr. Tal Shay
3.6.19	Prof. Asya Rolls	Faculty of Medicine, Technion	Brain-immune interactions	Dr. Ally Eran
10.6.19	Tal Cohen's concluding seminar		TBA	
17.6.19	Dr. Oren Kobiler	Faculty of Medicine, Tel Aviv University	Viral Genetic Diversity	Dr. Ally Eran
