אוניברסיטת בן-גוריון בנגב
Ben-Gurion University of the Negev 

Vacant Position: Faculty member
Department of Materials Engineering
Faculty of Engineering Sciences
Ben-Gurion University of the Negev
Beer-Sheva, Israel.

The Department of Materials Engineering at the Ben-Gurion University of the Negev seeks for an outstanding candidate for a tenure track faculty position. Applications will be considered in all areas of materials science including materials chemistry, materials physics and materials engineering.

Application packet should include:

- a) A cover letter
- b) Curriculum vitae
- c) List of publications. In addition to publications details this list should contain the total number of citations, Journal impact factor, Journal ranking and Quartile for each publication, and the candidate H-index, total number of citations, and total number of citations without self-citations (information extracted from ISI, GS is optional).
- d) Reprint of 2 major publications of the candidate
- e) Research statement and a short research proposal for the first five years (max 5 pages).
- f) Teaching Statement including suggested undergraduate and graduate core and advanced courses can be taught by the candidate.
- g) References list (Full name & Affiliation) of six PIs, including the candidate's Ph.D. and postdoctorate supervisors.

The application should be submitted by September 15th 2019 to:

Prof. Yaniv Gelbstein,

Head of the Department of Materials Engineering at the Ben Gurion University of the Negev
