

Guidelines for Progress Reports of Graduate Students

Avram and Stella Goldstein-Goren Department of Biotechnology Engineering

The instructions below refer to "Progress Reports" of:

- A. M.Sc. students that are submitted to The Department of Biotechnology Engineering, Faculty of Engineering
- B. Ph.D. students that are submitted to the Kreitman School of Advanced Graduate Studies

Reports should be 4-5 pages long containing the following information:

1. One page abstract with the following information:
 - Title of thesis – name and supervisor (format as that requested in the Research Seminar)
 - Introduction
 - Objectives
 - Methodology
 - Main results
2. Detailed description (2-3 pages) of experiments/study conducted in the reported period including references
3. Summary:
 - Scientific achievements for the reported period including published papers and/or presentations in conferences
 - Summary of all achievements throughout the study period
 - Future plans
4. **Ph.D. students** should make sure Kreitman's instructions are as well fulfilled according to:
http://in.bgu.ac.il/en/kreitman_school/Site%20Assets/Lists/Students/EditForm/Student%20Progress%20Guidelines.pdf

For any question please contact Head of Graduate Studies,
Department of Biotechnology Engineering at: Biotech.Grad@bgu.ac.il
