

The newly formed School of Electrical and Computer Engineering (ECE) at Ben-Gurion University of the Negev is actively seeking applications from outstanding individuals for full-time tenure-track faculty positions in all ranks. Ben-Gurion University of the Negev is a dynamic, research-extensive university with an enrollment of over 20,000 students and 850 faculty members. It is nationally and internationally recognized for its research and educational programs within a vibrant campus. The School of ECE currently has about 1200 undergraduate students, 250 graduate students, and 52 faculty members. The school offers three B.Sc. programs: ECE, Communication Systems Engineering (CSE), and Computer Engineering (CE)) and three graduate programs, ECE, CSE, and Electro-Optical Engineering. Further information: Click here or search for "BGU ECE".

Exceptional candidates in the broad area of ECE will be considered. Areas of special interest include:

- * Control and robotics
- * Computer engineering
- * Quantum computing, information, and sensing
- * VLSI and nano-technology
- * Power systems and energy conversion
- * Fundamentals of machine learning
- * Networking and cloud computing
- * Cryptographys

Excellent candidates in other areas of ECE will also be considered.

Candidates must have earned a Ph.D. in Electrical Engineering or in a related field by the time of appointment, an established record of research, and a successful track record in winning grants or scholarships. Significant post-doctoral experience is highly desired.

Further information and application: Click here or search for "BGU Tenure-Track Positions".

Ben-Gurion University of the Negev is an equal opportunity employer and educator, committed to a diverse faculty, staff, and student environment. Women and members of under-represented minority groups are strongly encouraged to apply.
