

Name of the module: Clinical Confrontation

Number of module 4718-1080

BGU Credits: 1.5

Academic year: 1st year medicine

Semester: Second semester.

Hours of instruction: 2:15-4:00pm

Lectures 26 hours

Location of instruction: Daily lectures will take place at the Deichmann Building for Health Professions. Specific classroom numbers are indicated in the schedule.

Language of instruction: Lectures will be given in Hebrew.

Cycle: B.Med.Sc

Position: Obligatory module intended for 1st year medical students, as part of their preclinical teaching.

:

General prerequisites: no pre-requisites.

Grading scale: 50% of the grade will be given on the basis of personal assignments. An additional 50% is given on the basis of successful passing of multiple-choice questions examination with a score of 65 or higher.

Course Description:

Aims of the module: Integration of knowledge acquired on basic foundation courses, with an initial experience in clinical thinking and clinical practice.

Objectives of the module: The student will recognize the clinical approach to common medical problems and differential diagnosis of these problems and practice basic skills such as: displaying a clinical case, using the library, medical articles and preparing a presentation.

Learning outcomes of the module: On successful completion of the course, the student should be able to:

1. Carry a short lecture on professional material.
2. Deliver a presentation using integration of different sources and professional literature.
3. Recognize some main topics in medicine (such as asthma, myocardial infarction, epilepsy and breast cancer)

Attendance regulation: Mandatory attendance at 80% of the lessons. A student who was not present in 80% of the lessons will not be able to take the exam and will have to repeat the course again.

Teaching arrangement and method of instruction: Lessons are taught in small groups of up to 18 students. The students themselves give lectures which they have prepared, in support of the practitioner's guidance.

In addition, there are meetings with patients and personal interviews.

Lecturer: Prof. Eyal Sheiner M.D,
Ph.D.

Mr. Nimrod Levy

Mr. Uriel Waxman

Mrs. Tal Ginat
