OECD Internship programme
The Organisation for Economic Co-operation and Development (OECD) is an international organisation comprised of 37 member countries, that works to build better policies for better lives. Our mission is to promote policies that will improve the economic and social well-being of people around the world.

Together with governments, policy makers and citizens, we work on establishing evidence-based international standards, and finding solutions to a range of social, economic and environmental challenges. From improving economic performance and creating jobs to fostering strong education and fighting international tax evasion, we provide a unique forum and knowledge hub for data and analysis, exchange of experiences, best-practice sharing, and advice on public policies and international standard-setting.

The OECD Internship Programme aims to bring highly qualified and motivated students with diverse backgrounds to work on projects linked to the Strategic Orientations of the Secretary-General. Learn more about our people and work at: www.oecd.org
