Dahari, A. (2014). Treatment of parents and children representations in dyadic psychotherapy.  
*Paper presented at the 'treat my representation' Conference, The Open University, Israel.*

- **Synopsis of research**

My main research interest is in developmental psychology, in particular on Controlling Achievement-Oriented Parenting and Child Frustration- Dysregulation, as Predictors of Toddlers' Mastery Motivation and Adjustment. future findings may have implications on the work of developmental psychologists who assess and treat individuals who are suffering from developmental, cognitive, or emotional difficulties.
