The Behavioral Science Lab at ELTE (Budapest, Hungary) seeks applicants for a 3-year Postdoctoral Position. The position allows applicants to work remotely (if they wish), focus full time on research, and offers a potential transfer to a tenure track position.

We are looking for someone who is competent and excited to work with us on one or more of the broadly defined topics: 1) perception of inequality and its effect on behavior. 2) RCT-s targeting disadvantaged populations 3) generalizability of behavioral interventions 4) analytical robustness of stat results 5) and many more in meta and behavioral science.
