Short bio:

Ron Kenett, Chairman and CEO of the KPA Group, Research Professor, University of Torino, Turin, Italy, International Professor Associate, Center for Risk Engineering, NYU-Poly, NY, USA and current President of the Israel Statistical Association (ISA).

Ron is editor in chief of the Wiley Encyclopedia of Statistics in Quality and Reliability, past editor in chief of the international journal Quality Technology and Quantitative Management, past President of the European Network for Business and Industrial Statistics (ENBIS) and member of the board of directors of several companies and institutions.

He is one of the founders of Babylon (www.babylon.com) and has been a consultant to Amdocs, Intel, IAI, Rafael, ECI, NICE, Comverse, hp, Pontis and others.

For over 15 years he taught a course on Software Reliability at the School of Engineering of Tel Aviv University (http://www.kpa-group.com/en/about-kpa/softrel).

He authored and edited 9 books and over 160 papers on applications of statistics in a variety of topics. His 2010 book, with E. Baker, on Process Improvement and CMMI for Systems and Software provides the background for his talk.
